

MARSH GIN

LONDON DRY GIN
INFUSED WITH PALOMINO FINA GRAPE
DISTILLED 6 TIMES

Marsh Gin comes from continental Europe's most southerly distillery, a product of local ingredients typical to southern Spain, near to the Atlantic ocean and one of Europe's most extensive salt marsh wetlands.

Local ingredients include the 'Palomino' grape, Seville orange peel, juniper, angelica seed and root, and lime, all infused through six distillations.

The use of highest quality primary ingredients and the multiple distillation ensures a supremely fine elegant and complex aroma with a fresh white grape and citric flavour

TECHNICAL CHARACTERISTICS:
